REDUCED PRICES ON CONSUMER GOODS IN CZECHOSLOVAKIA

[Comment: On 15 September 1953, the Czechoslovak government announced that the retail prices of more than 23,000 types of consumer goods would be lowered from 5 to 40 percent effective 1 October 1953.(1) [Numbers in parentheses refer to appended sources.]

This report is a compilation of press articles listing some price reductions implementing the new regulation. The commodities covered include food, tobacco, household products, clothing, fabrics, leather goods, appliances, construction materials, sporting goods, and motor vehicles. In some instances the sources did not give the former prices (of 30 September 1953) or the quantitative units to which the new prices refer.]
